AAYC Haunted House (Van Buren Frightmare)

Our major fundraiser each year is a haunted house that the youth of the center create and build. This fundraiser is great because the youth learn to construct and build the set of the haunted house, they learn acting skills and skills needed in the "real world" such as basic use of tools, paints, and other crafting skills. The haunt serves a dual purpose because it also gives the youth of Amarillo something to do that is safe, fun and affordable during the months of September through November. The attraction is open to the public in October.
